# NICE TO MEET YOU

Adaptive Cruise Control

Set your cruising speed and automatically maintain a set distance from the vehicle in front with the press of a button. Radar sensors scan the road ahead, if they sense that traffic slows, so does the Endura. Once the traffic clears, it returns to your pre-set speed.<sup>2</sup>

Active Noise Cancellation

The Ford Endura's cabin comes loaded with luxury. Inspired by noise cancelling headphones, the active noise cancellation technology ensures maximum comfort. Using highly sensitive microphones to detect and measure unwanted noise, the Ford Endura emits opposing sound waves to cancel it out.

Power To Do More

The Endura's 2.0L Turbo Diesel Engine with 8-speed automatic transmission allows for maximum power with incredible fuel efficiency. Save on fuel while you enjoy all the low-end torque you could ever need on any adventure, including both Front-Wheel-Drive and All-Wheel-Drive options on Trend, ST-Line and Titanium models.

While rear seat heating and luxury perforated leather accented seats are standard on all Titanium models.

Sleek Interior

Replacing the conventional shifter is a new rotary e-shifter and steering wheel paddle shifters. This slim design offers a sleeker interior and makes accessing the console and controls easier than ever.

Hands-Free Power Tailgate

Packing made easy. Kick your foot under the rear bumper and the Hands-Free Power Tailgate opens and closes automatically on the ST-Line and Titanium models. An adjustable tailgate height means the Endura can adapt to your surroundings.

Sporty ST-Line

With 20-inch alloy wheels with black accents, unique sports tuned suspension, black trapezoid grille, black roof rails and a sports inspired body kit, the Endura ST-Line is sure to ignite your sporty side. The cabin features a touch of sportiness with ST-Line accents throughout.

SYNC®3 Connectivity System with Voice Control<sup>1</sup>

Use voice commands to find your nearest restaurant, make hands-free phone calls and even listen to text messages. Seamlessly integrate your compatible smartphone through Apple CarPlay or Android Auto for hands-free control of your favourite apps.

Pre-Collision Assist with Pedestrian Detection (AEB)

Utilising both radar technology and the front camera, the Autonomous Emergency Braking system with Evasive Steer Assist is designed to help the driver mitigate and avoid collisions with vulnerable road users like pedestrians by automatically applying the brakes.<sup>2</sup>

Smart Parking

Parallel and perpendicular parking made easy. Enhanced Active Park Assist on Titanium<sup>4</sup> models not only helps you find the right parking space, it steers you in and out of parks hands free. All you need to do is work the accelerator, brake and gears.<sup>2</sup>
